FIELD DEPLOYMENT REPORT

Deployable GSOC

Field Intelligence Officers / Deployable GSOC

ISSUE	DEPLOYMENT 00
CADENCE	PER DEPLOYMENT
HANDLING	CLIENT CONFIDENTIAL

BOTTOM LINE UP FRONT

A two-officer FIO cell supported a client site team in Lagos for ten days during a contested local vote. Native-language collection gave the client early warning of two unrest events, and GPS tracking kept all 14 staff movements visible to the deployable GSOC.

DEPLOYMENT RISK LEVEL

4 / 5

HIGH

LOW — CRITICAL

Scored on TAM-C's 1 to 5 risk method. Raised one level on day six after unrest spread.

01 Key field developments

UNREST — HIGH

Early warning on a market district rally

Yoruba-language posts called for a rally near the [redacted] market six hours before it formed. The FIO cell moved two client staff out of the district and paused deliveries for the afternoon.

SOURCE · LOCAL SOURCES

SENTIMENT — ELEVATED

Hostile sentiment toward the client site

Sentiment tracking showed a rise in local posts naming the [redacted] site as tied to one party. The FIO briefed the site manager and coordinated a low-profile posture for the rest of the vote.

SOURCE · ARGO NG

MOVEMENT — MODERATE

Checkpoint delay on a staff transfer

A staff vehicle was held for 50 minutes at an informal checkpoint on the [redacted] road. The GSOC kept contact through the stop and the FIO adjusted later transfers to daylight hours only.

SOURCE · GPS TRACKING

02 Deployment area watch

INDICATOR	TREND	EXPOSURE
Calls for rallies in local-language channels	▲ Rising	HIGH
Informal checkpoints on main transit routes	▲ Rising	ELEVATED
Fuel shortages affecting site logistics	■ Steady	MODERATE
Hostile mentions of foreign-run sites	▲ Rising	ELEVATED

03 FIO recommendations

01 Keep staff transfers to daylight hours until results are certified and crowds disperse.

02 Hold a three-day fuel reserve at the site to absorb further supply disruption.

03 Retain native-language monitoring for two weeks after the deployment closes.

COLLECTION MIX THIS DEPLOYMENT

Local media 42% · Field HUMINT 33% · GPS and GSOC 25%

WHAT THE CLIENT RECEIVES

→ Field officers embedded on site

→ Deployable GSOC with GPS tracking

→ Native-language source collection

→ Daily sitreps and a closing report
