BOTTOM LINE UP FRONT

Thirty-two travelers and six security staff from a [redacted] energy firm completed a three-day program ahead of postings in Mozambique and Iraq. Average assessment scores rose from 54% to 88%. Communication drills remain the weakest area and need a refresher.

TEAM READINESS SCORE

2 / 5

GUARDED

LOW — CRITICAL

Scored on TAM-C's 1 to 5 risk method. Down from High before the program began.

01 Key findings

AWARENESS — MODERATE

Strong gains in situational awareness

In the surveillance exercise, 31 of 38 participants identified the [redacted] follow team within 20 minutes, up from 9 on day one. Hotel and vehicle routines were also applied consistently.

SOURCE · FIELD EXERCISE

COMMS — HIGH

Check-in protocol still unreliable

During the lost-contact drill, 12 participants missed the scheduled check-in or used the wrong [redacted] code word. Communication protocols need a refresher before staff deploy to site.

SOURCE · DRILL RESULTS

MEDICAL — ELEVATED

Trauma kit use needs more practice

Most participants applied a tourniquet correctly, but only half packed a wound within the time standard. Instructors from [redacted] advise a short medical module at the six-week mark.

SOURCE · INSTRUCTOR REVIEW

02 Readiness by module

MODULE	TREND	GAP
Situational awareness and surveillance	▲ Rising	MODERATE
Communication and check-in protocols	Steady	HIGH
Evasion and vehicle movement	▲ Rising	MODERATE
Medical basics and trauma care	▲ Rising	ELEVATED

03 Instructor recommendations

01 Run a one-hour communications refresher for all staff in the week before deployment.

02 Schedule a short medical module six weeks after arrival in country.

03 Enroll the six security staff in TAM-C platform training for incident reporting.

PROGRAM TIME BY FORMAT

Field drills 45% · Classroom 35% · Platform 20%

WHAT THE CLIENT RECEIVES

→ Program tailored to your locations
→ Field drills and scenario exercises
→ Scored assessments per participant
→ Completion report and next steps
