Red Team Exercises

ISSUE	EXERCISE 00
CADENCE	PER ENGAGEMENT
HANDLING	CLIENT CONFIDENTIAL

BOTTOM LINE UP FRONT

The Red Team reached the client's server room and executive floor within 90 minutes on day two of the exercise. Entry relied on tailgating, a cloned access card and an unlocked fire door. Guards challenged the team once, and the alert was not escalated.

Scored on TAM-C's 1 to 5 risk method from the points of intrusion the team achieved.

01 Points of intrusion

TAILGATING — HIGH

Main lobby entry behind staff

An operator posing as a [redacted] courier followed staff through the lobby turnstiles at the morning peak. Reception did not ask for a visitor pass or confirm the delivery recipient.

CARD CLONING — HIGH

Access card cloned in the cafe

A staff access card was read at close range in a nearby cafe and cloned within minutes. The copy opened the [redacted] floor and the server room, which use the same legacy card format.

SOURCE · RED TEAM OPERATOR

FIRE EXIT — ELEVATED

Fire door propped open by smokers

A rear fire door was propped open by staff on smoke breaks and had no alarm. The team used it to bring in equipment and leave unseen. A [redacted] guard saw the team but did not report it.

SOURCE · SITE OBSERVATION

02 Control performance

CONTROL	TREND	EXPOSURE
Visitor screening at reception	▼ Easing	HIGH
Legacy proximity access cards	■ Steady	HIGH
Fire door alarms and checks	▼ Easing	ELEVATED
Guard escalation procedures	■ Steady	ELEVATED

03 Remediation priorities

01 Replace legacy proximity cards with encrypted credentials for sensitive floors.

02 Alarm all fire doors and add them to guard patrol routes and door checks.

03 Train guards and reception to challenge, verify and escalate unknown visitors.
