LOW — CRITICAL

Scored on TAM-C's 1 to 5 risk method across facilities and events. Down one level from last month.

01 Key escalations

EVENT SECURITY — HIGH

Threat posted ahead of client summit

An anonymous account posted a threat naming the [redacted] summit venue in Lisbon. The VGSOC verified the account history, briefed the on-site lead, and coordinated added screening at entry.

SOURCE · SOCIAL MEDIA

ACCESS CONTROL — ELEVATED

Repeated badge failures after hours

A contractor badge failed 11 times at a [redacted] data center door between 01:00 and 02:30. Analysts flagged the pattern to site security, who found a revoked credential still in circulation.

SOURCE · CLIENT SYSTEMS

FACILITY RISK — MODERATE

Road closures around a regional office

Planned roadworks closed two access roads near the [redacted] office in Warsaw for nine days. The VGSOC issued a commute advisory and adjusted patrol timing with the on-site guard team.

03 Oversight recommendations

01 Audit contractor badge revocations weekly and confirm removal from all door controllers.

02 Extend social media monitoring to 30 days before each flagship event.

03 Align guard patrol schedules with VGSOC alert tiers at the Warsaw office.
